

# Play Surfacing

**Pentagon**  
For Learning and Play

## Saferturf

Saferturf is an all weather play surface which adds colour and design to play areas, while brightening up the overall appeal and stimulating children. It can be laid over tarmac to soften the surface or over grass to improve the usability of the area. Gone are the muddy shoes and uniforms bringing dirt back into the classrooms.

The wide variety of colours allows endless opportunities for design which can incorporate games and curriculum topics as well as scenes from the sea/train station/roads.

- ✓ All weather play
- ✓ Soft surface
- ✓ Educational design options

**5 YEAR**  
guarantee  
on surfacing
