

# Playground Furniture, Fencing & Storage

**Pentagon**  
For Learning and Play

## Play Cabin

Why settle for an ugly storage shed when you can have a versatile play cabin from Pentagon? The play cabin provides an attractive storage solution for all your playground resources. It also doubles as a playhouse and features a role play counter, bubble window and chalk boards to promote imaginative play and early writing skills.

The generous proportions of the play cabin and the large double doors allow the children easy access to the toys and promote child-initiated learning. The optional shelves provide further storage options, should you require them.

Built from sustainably sourced timber, the play cabin is constructed from attractive ship lap, anti trap hinged doors, and a bitumen shingle roof, providing a dry space for safe storage of trikes and scooters as well as all playtime toys.

- ✓ Role play
- ✓ Social and imaginative play
- ✓ Secure storage
- ✓ Early writing
